

EOD008 1M STANDARD FLEXIBLE ENDOSCOPE

The 1m Standard Flexible Endoscope is designed for searching buildings and vehicles although it is not suitable for the internal inspection of fuel tanks. The ergonomic design of the handle allows one handed operation of the controls. The endoscope is illuminated by a high-intensity 24 watt light source and 6.5amp battery pack and waist belt. The kit comes supplied complete with battery re-charger in a robust carrying case.

- Endoscope: Tungsten braided
Diameter: 6mm
Length: 1000mm (**2m version available**).
FOV: 60°
4 way articulation: +/- 100° L/R, 160° up, 130° down
- Light source: 24 watt xenon light source. 12V dc powered, mechanical shutter, ACMI female light guide fitting. Supplied with battery waist belt, 10 amp gel sealed lead acid battery and light source housing.
- Battery Pack: 6.5AH Lithium Ion, On/Off switch, XLR connector (12V Output), charging socket and fuse.
Charge time 6 hours from 3 stage charger.
