

EOD010 MICRO FLEXIBLE ENDOSCOPE RANGE

The Micro Flexible Endoscope Range is available from 0.9 to 2.5mm diameter in varying lengths up to 3000mm long. Constructed from a robust stainless steel body incorporating a focusing 31.75mm eyecup, the endoscope has an insertion tube of fused quartz fibre clad in a polyurethane outer sheath offering image resolution from 10,000-50,000 pixels.

Directions of view 0° forward & 90° side. Fields of view 70° as standard others on request.

The following configurations are available. Please specify when ordering:

Diameter	Length	Resolution	DOV	FOV
0.9	600-3000 in 300mm stages	10,000	0° & 90°	70°
1.3	600-3000 in 300mm stages	10,000	0° & 90°	70°
2.0	600-3000 in 300mm stages	10,000	0° & 90°	70°
2.5	600-3000 in 300mm stages	10,000	0° & 90°	70°
2.0	600-3000 in 300mm stages	30,000	0° & 90°	70°
2.2	600-3000 in 300mm stages	30,000	0° & 90°	70°
2.5	600-3000 in 300mm stages	30,000	0° & 90°	70°
2.5	600-3000 in 300mm stages	30,000	0° & 90°	70°
