

EOD053 COST-EFFECTIVE HAND-HELD METAL DETECTOR

This extremely cost-effective compact detector is both lightweight and durable, offering features that were previously only found on more expensive models.

The detector is designed to safeguard security sensitive areas such as schools, courtrooms, correctional facilities, sports events, businesses, night clubs, bars and other public areas and events.

This high performance hand-held metal detector is designed to meet the exacting requirements of the security industry. Typical uses include body search for offensive weapons, crowd control, checking packages and letters for metal objects and anywhere where hidden metal needs detecting. The presence of metal is indicated by an audio signal and a red LED. The unit operates from a single 9v battery and has a low and standard sensitivity setting.

Target Sensitivity:

Medium Pistol 12cm
Pen Knife 12cm
Razor Blade 7cm

Alarm Indication:

High efficiency piezo electric beeper and LED alert the operator to the presence of a hidden metallic object.

Specifications:
