

EOD041

BOMB TECHNICIANS' KIT

The Bomb Technicians' Kit is a full capability back-up response tool kit for professional bomb squad technicians. Designed for use in render safe or post deactivation environments, the kit was developed in close cooperation with serving EOD operators.

Tools are contained in a two-pallet configuration that is housed in a high density case. The case features military style twist latches, spring-loaded handle, tongue and groove valance, combination lock and padlock loops. This field proven case provides increased longevity in harsh field conditions. Inside dimensions are 17.75 x 14.5 x 9" deep.
