COMPACT HOOK AND LINE SET

The Compact Hook and Line Set is designed to enable the operator to safely remove IEDs and small UXO semi-remotely using a Kevlar core rope and Hook and Line attachments. The Kevlar rope provides a stand-off of 100m.

The **Compact Hook and Line** Set is designed to be lightweight and extremely portable and can be deployed in seconds. The kit comes in a heavy-duty nylon carry case which contains the reel of rope and all accessories. The case also has enough additional capacity should the operator wish to add any additional tools etc.
