

EOD801 Hand Held Metal Detector

The HD7 is a Hand Held Metal Detector for security and Counter-IED operations such as target confirmation and tactical personal area search as well as person search and similar screening operations. It is designed to withstand extended periods of use in harsh environments while providing a high level of sensitivity.

Primarily designed for use by military and police forces for:

1. Person Search
2. Counter Improvised Explosive Device (CIED) operations
 - Target confirmation
 - Safe route

The HD7 is rugged and simple to use, the detector is weather resistant and is manufactured to meet relevant UK defence standards and carries the CE mark. The system is powered by a standard 9 volt PP3 battery giving approximately 40 hours use.

The HD7 is in the service with the UK Armed Forces and NATO countries.

The HD7 is available in tan or black with MOLLE compatible metal clip.

Specifications:
