

**PPE016**

**FOLDING ASSAULT LADDER**

The 4 section Folding Assault Ladder is a very versatile ladder that is available in single and double width from 2.4m up to 4.85m.

- Box section style construction with swaged fully serrated double width reinforced rungs.
- Hand extended with hinge latching for ease of securing.
- Manufactured from high tensile aluminum alloy and finished in matt black powder coat as standard.

Note: Due to the configuration of this ladder it is not possible to split the sections for separate use.

**User restrictions:**

Maximum number of persons on the ladder is 3 (based on weight of officer and kit being 100kg).

Designed for normal angle of 15° to the wall (i.e. the foot of the ladder being ¼ the extended height from the wall).

NB. Because of the variable nature of storming/assault drills it is possible that in extreme cases damage may occur to the ladder. The method of construction means that only certain components are repairable.

Ladder Type: 4 section folding wide ladder

Ladder Options:	SW	W	XW
Extended Length:	2.4m	3.7m	4.85m
Length Folded:	640mm	945mm	1.25m
Width:	490mm	490mm	490mm
Depth folded:	220mm	220mm	220mm
Weight:	8kg	11kg	14kg

Options: Standard width available.
