

PPE018 COVERT WIRELESS EARPIECE

Our Covert Wireless Earpieces are available in Standard Analogue, Squelch and now in Digital.

The **Squelch Earpiece** filters out any unwanted signals created by computer monitors, shop security devices etc. The new **Digital Earpiece** uses the latest in digital technology to provide speech quality never before realised in this sort of equipment. The **Digital Earpiece** has the benefits of squelch, automatic gain control and a low battery indicator.
