

PPE070 GROUND LEVEL ASSAULT LADDER

- Lightweight Aluminium Construction
- Easily stored and carried
- Black finish
- 2 Man Capability

Lightweight, strong, go-anywhere, double section assault ladder that is tough enough for most MOE applications especially ground floor window entries. Manufactured in the UK to BSEN 131 from box section aluminium, the ends of the stiles are fitted with non-slip, wrap around rubber feet to provide extra stability on slippery surfaces. The rungs of the ladder made from non-slip swage aluminium.

Colour - Black
Length - 1220mm
