

PPE350

Flexible Ballistic Blanket

- Lightweight
- Totally Portable
- Level IIIA Protection
- 1220 x 610mm

The Portable Flexible Ballistic Shield can be deployed in seconds to provide a large area of protection up to Level IIIA.

Unlike a rigid conventional ballistic shield the Flexible Ballistic Shield is able to operate in more restrictive confined areas and can accompany the user through tight gaps and holes to be deployed at a later date.
