CE VOX HIGH POWERED TRANSMITTER

The CE VOX Voice Activated Transmitter is a cost effective transmitter designed for long term covert surveillance applications. The transmitter has a range of just under 1km in open ground and up to 150m when used within a building. When operated in the Voice Activated Mode the transmitter can be used for up to 150 days.

Technical Specifications:

Transmission Frequency:	1 channel fix, 433-434 MHz
RF Power Output:	10mW
Modulation:	FM 12kHz
Power Supply:	2 x 1.5v AAA batteries, 1100 mAh
Current Consumption:	< 0.3mA stby, 17mA transmission
Frequency stability:	+/- 2KHz
Weight:	30g
Microphone:	Electret microphone integrated
Dimensions:	53 x 24 x 16mm
Range:	Optimal conditions 900m Buildings- 150m
Transmitting time:	64hr, standby (VOX) 150 DAYS
Battery tray:	Integrated in the case
